REPORT OF THE HEADMASTER OF THE TROY HIGH SCHOOL

To the Superintendent of Schools:

I herewith submit my third report as headmaster of the Troy High School.

It is indeed gratifying to note the greater enthusiasm which prevails in the high school. This is probably due to the larger variety of courses offered in the fields of Home Economics, Woodworking, Commerce, Science, and Liberal Arts.

The pupils are still required to take certain basic courses in the common learnings. However, they are encouraged to elect courses in which their interests lie and which may be helpful in developing their vocational abilities.

There is the possibility that pupils may not elect the courses of study suited to their needs. In view of this fact, a guidance program was set up so that each pupil can discuss his own problems with his counsellor.

Occupational briefs of America's major job fields are now available to all together with a monthly newsletter which reports the latest job trends. These briefs explain the duties of the employee together with the physical and mental requirements, the training required, the earning capacity, the advantages and disadvantages, and the future in that particular field.

At present we are striving to integrate, with the present courses of study, the objectives as set up by the criteria proposed by the New Hampshire Life Adjustment Education Commission to assist schools in appraising the extent to which they are meeting fundamental life adjustment needs.

ATHLETICS

The student participation in sports at the Troy High School has increased considerably. The pupils have an opportunity to enjoy competitive sports which helps to develop the body as well as the mind.

The basketball teams have shown marked improvement in the last two years. If the enthusiasm continues, Troy may enjoy a championship team in the Southern New Hampshire League in the near future.

The baseball team was reorganized after a lapse of several years. After a slow start, the boys began to find themselves and started to win. All factors considered, the baseball team made a good account of itself by winning three games and losing five in their first year.

In conclusion, I wish to thank all those who contributed in any way to make the school year the success that it was.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Troy:

I herein submit my sixth annual report as Superintendent of Schools.

The expanding role of public education in general and the increased enrollment in the public schools indicate a need for reorganization in the near future. A study of the school census in Troy indicates that the problem of housing the school population will become increasingly serious.

The increased enrollment since 1943 has made it necessary to maintain two additional classrooms for housing the first six grades. At the present time the first six grades each require a separate classroom and teacher. This necessary arrangement has limited the classroom space for the high school pupils. The addition of the commerce curriculum, the growth of the school lunch program, and the demand for the activities of an enriched program add to the problem of congestion.

It appears that the housing problem in the Troy schools must be solved to some extent in the near future by a choice or combination of the following plans.

1. An addition to the present school building to provide adequate classroom space for all pupils in grades 1-12 inclusive with an activities room for music, visual education, school lunches, and a health and physical education program that reaches all pupils.

2. A decrease in the number of courses offered in grades 1-12 inclusive, or a decrease in the number of grades maintained in the high school by providing less than a four-year program beyond grade 8.

3. A cooperative plan of organization whereby the Troy School District would join with other nearby districts in order to provide an adequate program at a more reasonable per capita cost.

It appears that the growth of the cooperative school district will solve many problems in our schools and promote a

better educational program more economically. This trend will no doubt be subsidized by financial aid from State and Federal appropriations. The immediate problem indicates a need for a study of comparative budgets under the present program and some other plan. The per capita cost of educating high school pupils in Troy is high at present due to limited enrollments. As the enrollments in the upper grades increase, the problem of congestion will become even more acute.

CLASSIFICATION AND ORGANIZATION

For the school year ending June 30, 1948

<i>Teachers</i>	<i>Enrollments</i>
Peter J. Sperandio, Headmaster

Miss Mary J. Bonsignor having resigned at the close of the school year in June 1948, was replaced by Miss Barbara Saturey of Concord, N. H. Mr. Howard W. Park, who also resigned, was replaced by Mr. George Wilson of Port Jervis, New York, and Mr. Frederick Perkins of Boston, Massachusetts. Mr. Wilson is employed by several school districts and teaches music in Peterboro, Dublin, Hancock, Marlboro, and Troy High Schools. Mr. Perkins teaches music in the elementary grades of Chesterfield, Fitzwilliam, Harrisville, Marlboro and Troy.

SCHOOL PLANT

The school building has acquired many recent improvements. During the war period some depreciation occurred. New ceilings in five classrooms along with complete redecoration of the building with sight-saver paint have been completed within the last two year period. Window sash has been replaced in several rooms. New translucent shades have also been installed in a majority of the classrooms. An improved system for providing hot water for the Domestic Arts and school lunch programs has also been installed. It appears that the school plant is in good repair at the present time except for the floors in certain hallways and parts of the exterior of the building.

REPORT OF THE FOREST FIRE WARDEN

Your local organization to prevent and extinguish brush and woods fires is glad to report a good year of forest protection in 1948. In spite of danger conditions nearly equalling at times those of 1947 when great losses were suffered in New Hampshire and New England, fire damage and loss this year have been gratifyingly low.

With the continuing cooperation of all the people, we can hope to have another successful year in 1949. Let us remember that in any year, over 90% of all fires are caused by carelessness and that all of these man-caused fires are preventable.

Today, we have more slash and uncut grassland than for many years in the past. Smokers, campers and tourists who use our outdoors are also more numerous than ever before. We must therefore be ready for fires which might occur but, above all, prevention by everyone is the greatest need.

A few simple precautions taken by every citizen will help as follows:

- (1) Always get a written permit from the warden before kindling a fire outdoors when the ground is not covered with snow.
- (2) If you smoke, always extinguish matches and tobacco before dropping or throwing them down. In automobiles, always use the ash trays.
- (3) Report fires and smokes to the warden without delay.

The observance of these and other simple rules will go far to insure safety from fire damage and your cooperation in this way is earnestly solicited.

1948 FIRE RECORD

Number of Fires	4
Acreage Burned	1 $\frac{5}{8}$
Number of Fire Permits Issued	47

Respectfully submitted,

LESLIE G. BROWN,
Forest Fire Warden.

F. J. BAKER,
District Fire Chief.
